Techsil announce agreement with UV curing equipment & adhesives specialist the Hönle Group

Jan 2012: Techsil Ltd of Bidford-on-Avon Warwickshire announces an agreement with UV equipment specialist Hönle and their subsidiary company, adhesives experts, Panacol. Techsil will become distributors of Hönle's world leading UV curing equipment and Panacol's UV and LED curing adhesives to markets in the UK and Ireland.

Paul Hughes, Managing Director of Techsil comments, "It is felt that Techsil's long and successful business of supplying and developing adhesive and sealant solutions to the leading manufacturers fits perfectly with Hönle and Panacol's product ranges and strategic positioning. We look forward to a long and rewarding relationship."

Adhesive expert Panacol offers an extensive product range from structural adhesives through conductive adhesives to UV adhesives. As UV technology is a fast growing sector, Panacol has recently further developed their successful Vitralit® range. This innovation combines improved curing characteristics with an even higher resistance to moisture and temperature changes.

UV specialist Hönle, has optimised their high-tech curing equipment which ranges from classic UV curing units to innovative UV LED solutions – which are naturally perfectly adjusted to Panacol adhesives. Hönle's UV curing equipment includes point sources as well as units for a larger area, and hand lamps as well as units for fully automated productions lines.

Hönle and Panacol offer perfect bonding solutions for a wide variety of substrates such as plastics, glass, and metals and their products are used extensively in many sectors such as: electronics, medical equipment and disposables, glass bonding, and optics.

About Techsil

Techsil are industrial suppliers of RTV silicones, adhesives, sealants, encapsulants, conformal coatings, casting and mould making materials to a wide range of manufacturing industries across Europe including Aerospace, Automotive, Medical, Electronics, Railway, Marine, Foundry and Rapid Prototyping.

Based in the UK, Techsil's success has led it to become the largest RTV silicone distribution partner in Europe for Momentive Performance Materials. Techsil are also suppliers of: BJB polyurethane casting resins; ITW Devcon structural adhesives; ThreeBond industrial adhesives/sealants; Permatex industrial bonding materials; Power Adhesives Hot Melt adhesives

and Glue Guns; Stokvis Self Adhesive Tapes, Henkel structural adhesives and hot melts; and Chemtrend mould release agents.

About Hönle

Dr. Hönle AG, head of Hönle Group, is one of the world's leading suppliers for industrial UV technology. The UV specialist, who is noted on the stock exchange, develops, manufactures and distributes UV systems, UV lamps and UV measurement equipment worldwide. The systems are used in the cross-linking of photo-reactive substances, for surface sterilisation and solar simulation.

For years the UV specialist Hönle has been very successful in the curing and coating technology. The innovative Hönle UV systems can be integrated easily into particular manufacturing processes where they achieve excellent results. Hönle products are used in manufacturing processes in electronics, microelectronics, precision engineering and the optical industry, and in the printing, automobile, aerospace, pharmaceutical and photovoltaic sectors.

About Panacol

Hönle Group member Panacol-Elosol GmbH is an internationally successful provider of industrial adhesives with an extensive product range that includes UV adhesives, structural adhesives and silicones as well as associated accessories.

About the Hönle Group

In addition to the original parent company, UV systems specialist Dr. Hönle AG, the Hönle Group also comprises of the UV dryer specialists PrintConcept (rotary printing) and Eltosch (sheet-fed offset printing). Further subsidiaries are Aladin GmbH (UV lamps), UV-Technik Speziallampen GmbH (UV/IR lamps), the specialist for sun simulations plants and electronic power supply Mitronic GmbH as well as the adhesives specialist Panacol.
